Call for Papers

The 9th International Conference on Petroleum Phase Behavior & Fouling will be held in Victoria, British Columbia, Canada from June 15 - 19, 2008. You are cordially invited to attend and to participate by submitting an abstract or poster to this conference.

From a three session meeting in 1995, the conference has grown and evolved to a major annual international conference that attracted almost two hundred delegates from twenty counties around the world to Pau, France in 2007.

Providing both academia and industry with an opportunity to explore the area of petroleum phase behavior and fouling, the 2008 conference promises to allow participants to share new advancements in the areas of the chemistry, thermodynamics, and deposition related to heavy oil, bitumen, asphaltenes, wax, naphthenates and naphthenic acids, as well as petroleum-water emulsions, mechanisms and mitigation of fouling. In 2008 the application of petroleum geochemistry to these topics will also be discussed.

Abstracts of 500 words or less must be submitted before January 31, 2008. Notification of acceptance will be made by March 15, 2008 and full papers must be submitted by April 15, 2008. Abstracts and papers should be submitted by e-mail in .doc or .pdf format to papers@petrophase.ca

Please forward this call for papers to any of your friends or colleagues who may have an interest in the conference.

Check the conference website often for conference details and updates.
