

Contents

An Engineer in Philosopher’s Clothing	xvii
J. Michael Dunn	
J. Michael Dunn’s Publications	xxxv
Introduction: From Information at Large to Semantics of Logics	1
Katalin Bimbó	
RM and its Nice Properties	15
Arnon Avron	
Wedge Sum, Merge and Inconsistency	45
Chris Mortensen	
Single Axioms and Axiom-Pairs for the Implicational Fragments of R, R-Mingle, and Some Related Systems	53
Dolph Ulrich	
LC and Its Pretabular Relatives	81
Larisa Maksimova	
The Story of γ	93
Alasdair Urquhart	
Manipulating Sources of Information: Towards an Interpretation of Linear Logic and Strong Relevance Logic	107
Edwin Mares	
Epistemic Relevance and Epistemic Actions	133
Sebastian Sequoiah-Grayson	
Comparing Contents with Information	147
Ross T. Brady	

On Split Negation, Strong Negation, Information, Falsification, and Verification	161
Heinrich Wansing	
Truth, Falsehood, Information and Beyond: The American Plan Generalized.	191
Yaroslav Shramko	
Logical Foundations of Evidential Reasoning with Contradictory Information.	213
Chunlai Zhou	
Probabilistic Interpretations of Predicates	247
Janusz Czelakowski	
Reasoning with Incomplete Information in Generalized Galois Logics Without Distribution: The Case of Negation and Modal Operators	279
Chrysafis Hartonas	
Mereocompactness and Duality for Mereotopological Spaces.	313
Robert Goldblatt and Matt Grice	
Distributed Modal Logic	331
Gerard Allwein and William L. Harrison	
Tracking Information	363
Johan van Benthem	
Syllogistic Logic with Cardinality Comparisons	391
Lawrence S. Moss	
A “Reply” to My “Critics”	417
J. Michael Dunn	
Index	435
