9th International Symposium on  
Pharmaceutical Sciences

*Current Scientific Regulatory Challenges in  
Drug Development & Safety*

## CSPS 9th Annual International Symposium on Pharmaceutical Sciences

*“Current Scientific Regulatory Challenges in  
Drug Development & Safety”*

**May 24 - 27, 2006**

Crowne Plaza

101 rue Lyon Street, Ottawa

### Symposium Scope

In view of ever increasing concern over the safety and efficacy of medicines versus timely access to medicines, the 2006 CSPS annual scientific symposium will focus on current scientific challenges in drug development and safety. The scientific sessions will explore drug disposition; safety issues including hepatotoxicity, interactions and pharmacogenomics; dose proportionality and other applications of population pharmacokinetics. As a counterpoint, other sessions will deal with current regulatory issues around biologics, pharmaceuticals and genetic therapies to give a balance between assessing safety and timely access, and the importance of good science in drug development.

### Sessions & Chairs

Session 1: Drug disposition; Gordon McKay,  
Pharmalytics

Session 2: Safety issues; Jim Gallivan, Christine  
Nestruck, Health Canada

Session 3: Pharmacokinetics: focus on dose  
proportionality and other applications of population  
pharmacokinetics; Iain McGilveray, McGilveray  
Pharmacon Inc., Murray Ducharme, MDS Pharma

Session 4: New methods including pharmaceutical  
analysis, PAT, DMPK technologies; TBD

Session 4a: Ideas for revising the bioequivalence  
Guideline A; Laszlo Endrenyi, University of Toronto

Session 5: Regulatory issues; Eric Ormsby, Brian Foster,  
Health Canada
