

SYLLABUS

CHRTC 350: Science & Religion

Fall Term 2017 (Section X01)

Wednesdays 5:00 to 5:50 PM

Flip Classroom

This course examines the nature of both science and religion and attempts to explore the possible relationships between them. The primary purpose is to dispel the popular myth that science and religion are entrenched in a never-ending conflict. As a result, this course argues that *if the limits of both science and religion are respected, then their relationship can be complementary.*

Prerequisites

None. Just interest in the topic!

Student Objective

BEGIN to develop **YOUR** model on the relationship between science and religion

Constructivist Learning

YOU construct **YOUR** personal views and beliefs
