

Résumé

PROFESSOR DENIS O. LAMOUREUX

UNIVERSITY OF SKILL SET

Dr. Denis O. Lamoureux is one of the few scholars in the Science & Religion community who holds both a PhD in Evangelical Theology and a PhD in Evolutionary Biology. His 500-page *Evolutionary Creation* (2008) is one of the first evangelical Christian approaches to biological evolution. The thesis asserts that *God created the universe and life, including humans, through an ordained, sustained, and intelligently designed evolutionary process*. Lamoureux's career is centred on assisting Christians to appreciate modern science, especially human evolution.
