

Résumé

PROFESSOR DENIS O. LAMOUREUX

UNICITY OF SKILL SET

Dr. Denis O. Lamoureux is one of the few scholars in the Science & Religion community who holds both a PhD in Evangelical Theology and a PhD in Evolutionary Biology. His 500-page *Evolutionary Creation* (2008) is one of the first evangelical Christian approaches to biological evolution. The thesis asserts that the *Father, Son, and Holy Spirit created the universe and life through an ordained, sustained, and intelligently designed evolutionary process*. Lamoureux's ministry and academic career are centred on assisting evangelical Christians to appreciate modern science, including biological evolution.
