

Auto-Regressive Example

$$y_t = \frac{1}{1 - 0.2z^{-1} - 0.24z^{-2}} \varepsilon_t$$

Integrating Example

$$y_t = \frac{1}{1 - z^{-1}} \varepsilon_t$$

Integrating Example (continued)

$$y_t = \frac{1}{1-z^{-1}} \varepsilon_t$$

Moving Average Example

$$y_t = (1 - 0.2z^{-1} - 0.24z^{-2}) \epsilon_t$$
