

Spring 2011: Experience China From Within

University of Alberta

- Students who have exposure, awareness and knowledge of other cultures are better prepared for success in the current global environment. Today, China is of particular interest to Canada and to Alberta.
- Knowing and understanding China is now viewed as a career asset by many sectors in our society. Build your career edge by understanding China.
- Learn from hands-on interactions with Chinese in their cultural, social, educational and business sectors.
- This 3-credit course about China is for UofA students from all faculties.
- If you are looking for an exciting international experience in China, this UofA course at Zhejiang University is for you!

What Will You Gain?

- Enhanced knowledge of Chinese cultures and values through direct interactions
- Sophisticated understanding of Chinese society and economy, including the higher education sector
- Direct experience through interaction with staff and students at one of the top three Chinese universities in your academic major
- Corporate visits related to your field of interest
- Career advancing opportunities here, in China, or elsewhere!
