Publication List

My students are underlined, red for grad students, blue for undergrads, black for postdocs. I am in **bold**. * indicates corresponding author, if not the first. Supervisors are often second authors, and author lists are typically ordered by contributions, except for some large collaborations. My current (June 2026) h-index, according to the SAO/NASA Astrophysics Data System (https://ui.adsabs.harvard.edu), is 64, with a total of 12,621 citations to refereed publications.
