

## Registration Information for Students Fall 2018 – Winter 2019

---

As of March 2018, Bear Tracks web-based registration for INT D 410 is open for Fall 2018 and Winter 2019. Health Science students must register into discipline-specific sections, which enables tracking the number of students from each discipline who register for the course at the various days/times that the course runs. Students from multiple discipline-specific sections will be combined to create interdisciplinary course groups.

There are 2 overall versions of INT D 410; both require the equivalent of 10 modules of work:

- Version 1 (INT D 410 A/B) spreads the work across fall and winter terms, for a lighter load in the winter term compared with the traditional winter-only version of the course.
- Version 2 (INT D 410) has all the course work compressed in the winter term only.

Bear Tracks section caps are setup such that about half of students will register in each of the 2 versions.

### **Version 1: INT D 410A & INT D 410B**

- Also known as “Essentials of Collaborative Practice” (ECP) stream.
- Course spans across Fall 2018 & Winter 2019.
- The Fall term has no fixed class time, rather a combination of online work and variably scheduled face-to-face sessions, equivalent to a total of 3 modules of work.
- Requires attendance at the Interprofessional (IP) Launch on Friday, Sept 14 (choice of several different 3-hour timeslots, morning or afternoon); or students who have attended the IP Launch in a previous year get advance credit and do not need to attend again in Fall 2018.
- Requires attendance at a Fall 3-hour interprofessional learning experience, which students will select in Fall 2018 from a menu of options (students will be provided with a list of various date/time choices).
- Includes 6 face-to-face 3-hour classes in the winter term between Jan 8 & Mar 21, 2019, on a fixed day/time depending on the section in which you register.
- Requires attendance at the Help Save Stan simulation event, which will be a 3-hour experience on Saturday March 2, 2019. Note: Students have a week off of their regularly scheduled class in exchange for attending this event.

### **Version 2: INT D 410 Winter only**

- This is the traditional course schedule, which includes 10 face-to-face 3-hour classes between Jan 8 & Mar 21, 2019, on a fixed day/time once weekly depending on the section in which you register.
- Web-based registration in Bear Tracks for INT D 410 (Winter term version) closes on Nov. 16, 2018, after which you must contact [intd410@ualberta.ca](mailto:intd410@ualberta.ca) to have the HSERC dept. register you in the course.

Consult the chart below for the specific INT D 410 registration section numbers for each program.  
Please send an email to [intd410@ualberta.ca](mailto:intd410@ualberta.ca) if you have any questions about course registration.

Note: for Version 1 (INT D 410 A & B), students must register in a matching pair of Fall and Winter sections. Students must look up the Fall (A) and Winter (B) portions separately to register in them in Bear Tracks.

Please send an email to [intd410@ualberta.ca](mailto:intd410@ualberta.ca) if you have any questions about course registration.  
INT D 410 is coordinated by the Health Sciences Education and Research Commons (HSERC).
