

John Wilson

Other names

Emeritus Professor, University of Alberta

Micrometeorology
fluid mechanics
particle physics

	All	Since 2021
Citations	7972	1509
h-index	45	20
i10-index	97	45

TITLE	CITED BY	YEAR
Review of Lagrangian stochastic models for trajectories in the turbulent atmosphere JD Wilson, BL Sawford Boundary-layer meteorology 78 (1), 191-210	604	1996
Backward-time Lagrangian stochastic dispersion models and their application to estimate gaseous emissions TK Flesch, JD Wilson, E Yee Journal of Applied Meteorology and Climatology 34 (6), 1320-1332	526	1995
Deducing ground-to-air emissions from observed trace gas concentrations: A field trial TK Flesch, JD Wilson, LA Harper, BP Crenna, RR Sharpe Journal of Applied Meteorology 43 (3), 487-502	432	2004
Numerical studies of flow through a windbreak JD Wilson Journal of Wind Engineering and Industrial Aerodynamics 21 (2), 119-154	324	1985
Estimating gas emissions from a farm with an inverse-dispersion technique TK Flesch, JD Wilson, LA Harper, BP Crenna Atmospheric Environment 39 (27), 4863-4874	282	2005
A second-order closure model for flow through vegetation JD Wilson Boundary-Layer Meteorology 42 (4), 371-392	260	1988
Determining ammonia emissions from a cattle feedlot with an inverse dispersion technique TK Flesch, JD Wilson, LA Harper, RW Todd, NA Cole Agricultural and forest meteorology 144 (1-2), 139-155	227	2007
Estimation of the rate of gaseous mass transfer from a surface source plot to the atmosphere JD Wilson, GW Thurtell, GE Kidd, EG Beauchamp Atmospheric Environment (1967) 16 (8), 1861-1867	212	1982
Numerical simulation of particle trajectories in inhomogeneous turbulence, II: Systems with variable turbulent velocity scale JD Wilson, GW Thurtell, GE Kidd Boundary-layer meteorology 21 (4), 423-441	194	1981

TITLE	CITED BY	YEAR
Statistics of atmospheric turbulence within and above a corn canopy JD Wilson, DP Ward, GW Thurtell, GE Kidd Boundary-Layer Meteorology 24 (4), 495-519	192	1982
A two-dimensional trajectory-simulation model for non-Gaussian, inhomogeneous turbulence within plant canopies TK Flesch, JD Wilson Boundary-Layer Meteorology 61 (4), 349-374	151	1992
Calculation of particle trajectories in the presence of a gradient in turbulent-velocity variance JD Wilson, BJ Legg, DJ Thomson Boundary-Layer Meteorology 27 (2), 163-169	141	1983
Numerical simulation of particle trajectories in inhomogeneous turbulence, III: Comparison of predictions with experimental data for the atmospheric surface layer JD Wilson, GW Thurtell, GE Kidd Boundary-Layer Meteorology 21 (4), 443-463	139	1981
Flow boundaries in random-flight dispersion models: enforcing the well-mixed condition JD Wilson, TK Flesch Journal of Applied Meteorology and Climatology 32 (11), 1695-1707	129	1993
Verification of a simple micrometeorological method for estimating the rate of gaseous mass transfer from the ground to the atmosphere JD Wilson, VR Catchpoole, OT Denmead, GW Thurtell Agricultural Meteorology 29 (3), 183-189	126	1983
A re-examination of the integrated horizontal flux method for estimating volatilisation from circular plots JD Wilson, WKN Shum Agricultural and forest Meteorology 57 (4), 281-295	120	1992
Trajectory models for heavy particles in atmospheric turbulence: comparison with observations JD Wilson Journal of Applied Meteorology 39 (11), 1894-1912	116	2000
On the choice of a windbreak porosity profile JD Wilson Boundary-Layer Meteorology 38 (1), 37-49	114	1987
Wind and remnant tree sway in forest cutblocks. II. Relating measured tree sway to wind statistics TK Flesch, JD Wilson Agricultural and Forest Meteorology 93 (4), 243-258	111	1999

TITLE	CITED BY	YEAR
A first-order closure for diturbed plant-canopy flows, and its application to winds in a canopy on a ridge JD Wilson, JJ Finnigan, MR Raupach Quarterly Journal of the Royal Meteorological Society 124 (547), 705-732	111	1998
Inverse-dispersion calculation of ammonia emissions from Wisconsin dairy farms TK Flesch, LA Harper, JM Powell, JD Wilson Transactions of the ASABE 52 (1), 253-265	110	2009
Deducing ground-to-air emissions from observed trace gas concentrations: A field trial with wind disturbance TK Flesch, JD Wilson, LA Harper Journal of Applied Meteorology 44 (4), 475-484	108	2005
Monin-Obukhov functions for standard deviations of velocity JD Wilson Boundary-layer meteorology 129 (3), 353-369	107	2008
Windbreak aerodynamics: is computational fluid dynamics reliable? P Bourdin, JD Wilson Boundary-layer meteorology 126 (2), 181-208	104	2008
Numerical modelling of the turbulent flow developing within and over a 3-D building array, part II: a mathematical foundation for a distributed drag force approach F Lien, E Yee, JD Wilson Boundary-Layer Meteorology 114 (2), 245-285	103	2005
Estimation of the Kolmogorov constant (*C*) for the Lagrangian structure function, using a second-order Lagrangian model of grid turbulence S Du, BL Sawford, JD Wilson, DJ Wilson Physics of Fluids 7 (12), 3083-3090	100	1995
The source area influencing a measurement in the planetary boundary layer: The “footprint” and the “distribution of contact distance” JD Wilson, GE Swaters Boundary-Layer Meteorology 55 (1), 25-46	100	1991
Micro-meteorological methods for estimating surface exchange with a disturbed windflow JD Wilson, TK Flesch, LA Harper Agricultural and Forest Meteorology 107 (3), 207-225	93	2001
Numerical simulation of particle trajectories in inhomogeneous turbulence, I: Systems with constant turbulent velocity scale JD Wilson, GW Thurtell, GE Kidd Boundary-Layer Meteorology 21 (3), 295-313	92	1981

TITLE	CITED BY	YEAR
Wind and remnant tree sway in forest cutblocks. III. A windflow model to diagnose spatial variation JD Wilson, TK Flesch Agricultural and Forest Meteorology 93 (4), 259-282	91	1999
History of Lagrangian stochastic models for turbulent dispersion DJ Thomson, JD Wilson Lagrangian modeling of the atmosphere 200, 19-36	85	2012
Probability density functions for velocity in the convective boundary layer, and implied trajectory models S Du, JD Wilson, E Yee Atmospheric Environment 28 (6), 1211-1217	81	1994
Calculation of winds disturbed by an array of fences JD Wilson, E Yee Agricultural and forest meteorology 115 (1-2), 31-50	78	2003
Turbulent transport within the plant canopy JD Wilson Estimation of areal evapotranspiration 177, 43-80	77	1989
Wind and remnant tree sway in forest cutblocks.: I. Measured winds in experimental cutblocks TK Flesch, JD Wilson Agricultural and Forest Meteorology 93 (4), 229-242	76	1999
First-and second-order closure models for wind in a plant canopy JDJP Pinard, JD Wilson Journal of Applied Meteorology 40 (10), 1762-1768	75	2001
Ammonia emissions from broiler production in the San Joaquin Valley LA Harper, TK Flesch, JD Wilson Poultry science 89 (9), 1802-1814	70	2010
The effect of biofuel production on swine farm methane and ammonia emissions LA Harper, TK Flesch, KH Weaver, JD Wilson Journal of Environmental Quality 39 (6), 1984-1992	66	2010
Oblique, stratified winds about a shelter fence. Part II: Comparison of measurements with numerical models JD Wilson Journal of applied meteorology 43 (10), 1392-1409	59	2004
A field study of the mean pressure about a windbreak JD Wilson Boundary-Layer Meteorology 85 (3), 327-358	57	1997

TITLE	CITED BY	YEAR
A trajectory-simulation model for heavy particle motion in turbulent flow Y Zhuang, JD Wilson, EP Lozowski	56	1989
Estimating tracer emissions with a backward Lagrangian stochastic technique TK Flesch, JD Wilson Micrometeorology in agricultural systems 47, 513-531	52	2005
The use of cumulative monthly mean temperature anomalies in the analysis of local interannual climate variability EP Lozowski, RB Charlton, CD Nguyen, JD Wilson Journal of Climate, 1059-1068	52	1989
The Canadian Meteorological Centre's atmospheric transport and dispersion modelling suite R D'Amours, A Malo, T Flesch, J Wilson, JP Gauthier, R Servranckx Atmosphere-Ocean 53 (2), 176-199	50	2015
Agricultural gas emissions during the spring thaw: Applying a new measurement technique TK Flesch, VS Baron, JD Wilson, DWT Griffith, JA Basarab, PJ Carlson Agricultural and Forest Meteorology 221, 111-121	47	2016
Computing the flux footprint JD Wilson Boundary-Layer Meteorology 156 (1), 1-14	45	2015
Data filtering for inverse dispersion emission calculations TK Flesch, SM McGinn, D Chen, JD Wilson, RL Desjardins Agricultural and forest meteorology 198, 1-6	45	2014
Turbulent kinetic energy dissipation in the surface layer D Charuchittipan, JD Wilson Boundary-layer meteorology 132 (2), 193-204	45	2009
Oblique, stratified winds about a shelter fence. Part I: Measurements JD Wilson Journal of applied meteorology 43 (8), 1149-1167	45	2004
Effects of a shelterbelt on road dust dispersion Y Mao, JD Wilson, J Kort Atmospheric Environment 79, 590-598	43	2013
Evidence of Antineutrinos from Distant Reactors using Pure Water at SNO+ SNO Collaboration PHYSICAL REVIEW LETTERS 130 (091801)	42 *	2023
Trajectory curvature as a selection criterion for valid Lagrangian stochastic dispersion models JD Wilson, TK Flesch	42	1997

TITLE	CITED BY	YEAR
Boundary-Layer Meteorology 84 (3), 411-425		
Improved search for invisible modes of nucleon decay in water with the SNO+ detector SNO Collaboration Phys. Rev. D 105 (112012)	39 *	2022
Filtering of windborne particles by a natural windbreak T Bouvet, B Loubet, JD Wilson, A Tuzet Boundary-layer meteorology 123 (3), 481-509	38	2007
Influence of source–sensor geometry on multi-source emission rate estimates BP Crenna, TK Flesch, JD Wilson Atmospheric Environment 42 (32), 7373-7383	37	2008
Lagrangian simulation of wind transport in the urban environment JD Wilson, E Yee, N Ek, R d'Amours Quarterly Journal of the Royal Meteorological Society: A journal of the …	36	2009
Observations and modeling of heavy particle deposition in a windbreak flow T Bouvet, JD Wilson, A Tuzet Journal of applied meteorology and climatology 45 (9), 1332-1349	36	2006
Restriction on the timestep to be used in stochastic Lagrangian models of turbulent dispersion JD Wilson, Y Zhuang Boundary-layer meteorology 49 (3), 309-316	36	1989
A critical examination of the random displacement model of turbulent dispersion JD Wilson, E Yee Boundary-layer meteorology 125 (3), 399-416	35	2007
Micrometeorological measurements reveal large nitrous oxide losses during spring thaw in Alberta TK Flesch, VS Baron, JD Wilson, JA Basarab, RL Desjardins, D Worth, ... Atmosphere 9 (4), 128	33	2018
A perturbation analysis of turbulent flow through a porous barrier JD Wilson, GE Swaters, F Ustina Quarterly Journal of the Royal Meteorological Society 116 (494), 989-1004	33	1990
Measured winds about a thick hedge A Tuzet, JD Wilson Agricultural and forest meteorology 145 (3-4), 195-205	32	2007
An approximate analytical solution to the diffusion equation for short-range dispersion from a continuous ground-level source JD Wilson Boundary-Layer Meteorology 23 (1), 85-103	31	1982

TITLE	CITED BY	YEAR
Estimating surface-air gas fluxes by inverse dispersion using a backward Lagrangian stochastic trajectory model JD Wilson, TK Flesch, BP Crenna Lagrangian Modeling of the Atmosphere 200, 149-162	30	2012
Disagreements between gradient-diffusion and Lagrangian stochastic dispersion models, even for sources near the ground CJ Mooney, JD Wilson Boundary-layer meteorology 64 (3), 291-296	30	1993
Event-by-event direction reconstruction of solar neutrinos in a high light-yield liquid scintillator A Allega, MR Anderson, S Andringa, J Antunes, M Askins, DJ Auty, ... Physical Review D 109 (7), 072002	29	2024
Instability in Lagrangian stochastic trajectory models, and a method for its cure E Yee, JD Wilson Boundary-layer meteorology 122 (2), 243-261	29	2007
Turbulent dispersion in the atmospheric surface layer JD Wilson Boundary-Layer Meteorology 22 (4), 399-420	29	1982
Comments on'a Numerical Simulation of Boundary-Layer Flows Near Shelterbelts 'by H. Wang and E. Takle JD Wilson, CJ Mooney Boundary-Layer Meteorology 85 (1), 137-149	27	1997
Turbulent Schmidt numbers above a wheat crop JD Wilson Boundary-layer meteorology 148 (2), 255-268	26	2013
Methane emissions from cattle grazing under diverse conditions: An examination of field configurations appropriate for line-averaging sensors TK Flesch, JA Basarab, VS Baron, JD Wilson, N Hu, NW Tomkins, ... Agricultural and Forest Meteorology 258, 8-17	25	2018
On the moments approximation method for constructing a Lagrangian stochastic model S Du, JD Wilson, E Yee Boundary-layer meteorology 70 (3), 273-292	24	1994
Ground-to-air gas emission rate inferred from measured concentration rise within a disturbed atmospheric surface layer JD Wilson, TK Flesch, P Bourdin Journal of applied meteorology and climatology 49 (9), 1818-1830	23	2010
Initial measurement of reactor antineutrino oscillation at SNO+ SNO Collaboration The European Physical Journal C 85 (1), 17	22	2025

TITLE	CITED BY	YEAR
Wind measurements in a square plot enclosed by a shelter fence JD Wilson, TK Flesch Boundary-layer meteorology 109 (2), 191-224	22	2003
Dispersion in sheared Gaussian homogeneous turbulence JD Wilson, TK Flesch, GE Swaters Boundary-Layer Meteorology 62 (1), 281-290	22	1993
The microclimate in the centre of small square sheltered plots JC Argete, JD Wilson Agricultural and forest meteorology 48 (1-2), 185-199	22	1989
An approximate analytical solution for the deposition of heavy particles released from an elevated line source T Bouvet, JD Wilson Boundary-Layer Meteorology 119 (1), 1-18	21	2006
An idealized mean wind profile for the atmospheric boundary layer JD Wilson, TK Flesch Boundary-layer meteorology 110 (2), 281-299	21	2004
Heat and water vapour diffusivities near the base of a disturbed stable internal boundary layer J Laubach, KG McNaughton, JD Wilson Boundary-layer meteorology 94 (1), 23-63	21	2000
Coherent motions in windbreak flow Y Zhuang, JD Wilson Boundary-Layer Meteorology 70 (1), 151-169	21	1994
A relationship between deposition velocity and trajectory reflection probability for use in stochastic Lagrangian dispersion models JD Wilson, FJ Ferrandino, GW Thurtell Agricultural and forest meteorology 47 (2-4), 139-154	19	1989
Measurement of Reactor Antineutrino Oscillation at $\mathrm{SNO}+$ M Abreu, V Albanese, A Allega, R Alves, MR Anderson, S Andringa, ... Physical review letters 135 (12), 121801	18	2025
Comparing two implementations of a micromixing model. Part I: wall shear-layer flow JV Postma, JD Wilson, E Yee Boundary-layer meteorology 140 (2), 207-224	16	2011
Wall-jet velocity and temperature profiles resulting from a ventilation inlet JD Wilson, ML Esmay, S Persson Transactions of the ASAE 13 (1), 77-0081	16	1970

TITLE	CITED BY	YEAR
Measurement of the ^{8}B solar neutrino flux using the full SNO + water phase dataset A Allega, MR Anderson, S Andringa, M Askins, DM Asner, DJ Auty, ... Physical Review D 110 (12), 122003	14	2024
Deposition of particles to a thin windbreak: The effect of a gap JD Wilson Atmospheric environment 39 (30), 5525-5531	14	2005
Comparing two implementations of a micromixing model. Part II: canopy flow JV Postma, JD Wilson, E Yee Boundary-layer meteorology 140 (2), 225-241	13	2011
Refining an inverse dispersion method to quantify gas sources on rolling terrain N Hu, TK Flesch, JD Wilson, VS Baron, JA Basarab Agricultural and Forest Meteorology 225, 1-7	12	2016
Representing drag on unresolved terrain as a distributed momentum sink JD Wilson Journal of the atmospheric sciences 59 (9), 1629-1637	12	2002
“Rogue velocities” in a Lagrangian stochastic model for idealized inhomogeneous turbulence JD Wilson Lagrangian modeling of the atmosphere 200, 53-58	11	2012
Mesoscale wind climate modelling in steep mountains JP Pinard, R Benoit, JD Wilson Atmosphere-ocean 47 (1), 63-78	11	2009
Turbulence Measurements in a Corn Canopy and Numerical Simulation of Particle Trajectories in Inhomogeneous Turbulence. JD Wilson Ph. D. Thesis	11	1980
Generalized flux-gradient technique pairing line-average concentrations on vertically separated paths JD Wilson, TK Flesch Agricultural and Forest Meteorology 220, 170-176	10	2016
First-order inconsistencies caused by rogue trajectories JV Postma, E Yee, JD Wilson Boundary-layer meteorology 144 (3), 431-439	10	2012
Surface delays for gases dispersing in the atmosphere JD Wilson, TK Flesch, R d'Amours Journal of Applied Meteorology 40 (8), 1422-1430	10	2001
Comments on a relationship between fluid and immersed-particle velocity fluctuations proposed by Walklate (1987)	10	1988

TITLE	CITED BY	YEAR
JD Wilson, EP Lozowski, Y Zhuang Boundary-layer meteorology 43 (1), 93-98		
An alternative eddy-viscosity model for the horizontally uniform atmospheric boundary layer JD Wilson Boundary-layer meteorology 145 (1), 165-184	9	2012
Lagrangian simulation of suspended particles in the neutrally stratified surface boundary layer PA Taylor, PY Li, JD Wilson Journal of Geophysical Research: Atmospheres 107 (D24), AAC 7-1-AAC 7-11	9	2002
MLCD: a short-range atmospheric dispersion model for emergency response TK Flesch, JD Wilson, BP Crenna Edmonton, Alberta: University of Alberta	9	2002
Measurement of Reactor Antineutrino Oscillations with 1.46 Kilotonne-Years of Data at SNO+ M Abreu, A Allega, MR Anderson, S Andringa, DM Asner, DJ Auty, ... Physical Review Letters 137 (10), 101807	8	2026
Measured and modelled wind variation over irregularly undulating terrain JD Wilson Agricultural and Forest Meteorology 249, 187-197	8	2018
Forward Lagrangian stochastic simulation of a transient source in the atmospheric surface layer EH Shadwick, JD Wilson, TK Flesch Boundary-layer meteorology 122 (2), 263-272	7	2007
Wind and turbulence in a sparse but regular plant canopy A Tuzet, JD Wilson Journal of Applied Meteorology 41 (5), 573-587	6	2002
Extreme value analysis of wind gusts in Alberta TK Flesch, JD Wilson	6	1993
Tracer emissions inferred from a backward Lagrangian stochastic dispersion model: A validation study TK Flesch, JD Wilson, LA Harper, RR Sharpe, BP Crenna Proceedings of the 25th Conference on Agricultural & Forest Meteorology	5	2004
A numerical simulation of boundary-layer flows near shelterbelts-comments JD Wilson, CJ Mooney Boundary-Layer Meteorology 85 (1), 137-149	5	1997
Spatial variability in surface climates DG Steyn, HP Schmid, JL Walmsley, JD Wilson The Surface Climates of Canada 44, 67	5	1997

TITLE	CITED BY	YEAR
Modeling the Effect of Turbulence on the Collision ofi'(Zloud Droplets S Du, D WILSON Journal of the atmospheric sciences 52 (0), 22	5	1995
Observations of wind flow and tracer gas dispersion over sand dunes. JD Wilson, TS Clarkson, MG Hadfield N. Z. J. SCI. 27 (3), 237-242	5	1984
First Evidence of Solar Neutrino Interactions on ^{13}C M Abreu, A Allega, MR Anderson, S Andringa, DM Asner, DJ Auty, ... Physical review letters 135 (24), 241803	4	2025
The wind field in a cattle feedlot: measurements and simulations JD Wilson, TK Flesch, SM McGinn Agricultural and Forest Meteorology 256, 84-92	4	2018
The development of a prototype of Canadian urban flow and dispersion modeling system R Hogue, N Benbouta, J Mailhot, S Belair, A Lemonsu, E Yee, FS Lien, ... Eighth Symposium on the Urban Environment	4	2009
Turbulent velocity distributions and implied trajectory models JD Wilson Boundary-layer meteorology 125 (1), 39-47	4	2007
Sea spray dispersion over the ocean surface: A numerical simulation Y Zhuang, EP Lozowski, JD Wilson, G Bird Journal of Geophysical Research: Oceans 98 (C9), 16547-16553	4	1993
Thermally-driven scintillator flow in the SNO+ neutrino detector JD Wilson Nuclear Instruments and Methods in Physics Research, Section A. 1055 (168430 …	3	2023
Statistics of the wind-speed difference between points with cross-wind separation JD Wilson Boundary-layer meteorology 146 (1), 149-160	3	2013
Diagnosing wind variation in periodic forest clearcuts, in relation to tree sway JD Wilson, TK Flesch CONFERENCE ON AGRICULTURAL AND FOREST METEOROLOGY WITH SYMPOSIUM ON FIRE AND …	3	1996
Cosmogenic neutron production in water at $\mathrm{SNO}+$ M Abreu, A Allega, MR Anderson, S Andringa, DM Asner, DJ Auty, ... Physical Review D 113 (5), 052014	2	2026

TITLE	CITED BY	YEAR
Dispersion from an area source in the unstable surface layer: an approximate analytical solution JD Wilson Quarterly Journal of the Royal Meteorological Society 141 (693), 3285-3296	2	2015
Erratum to ‘Lagrangian simulation of wind transport in the urban environment’ JD Wilson, E Yee, N Ek, R d'Amours Quarterly Journal of the Royal Meteorological Society: A journal of the …	2	2010
Ammonia from livestock operations: Measurement technologies and emissions LS Harper, NA Cole, TK Flesch, RR Sharpe, RW Todd, JD Wilson Proc. Plains Nutrition Council Spring Conf, 27-51	2	2004
Predictive model for scalar concentration fluctuations in and above a model plant canopy JV Postma, E Yee, JD Wilson Agricultural and forest meteorology 166, 127-136	1	2012
Dynamic response of the thermometric net radiometer JD Wilson, WJ Massman, GE Swaters Agricultural and forest meteorology 149 (8), 1358-1364	1	2009
