

Only COMET

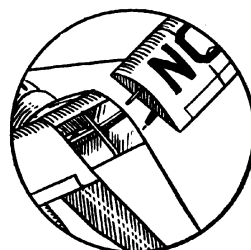

MODEL AIRPLANES
have all these features

DE LUXE MONO-COUCPE—Kit No. 5A-175. 32" wingspan. EXACT SCALE—1"=1'0".
50c

SHOCK-ABSORBING LANDING GEAR—smooth landings—prevents break-ups.

REMOVABLE WINGS—for easy, convenient transportation of model.

MICROMETER PRECISION!

Yes sir! Comet models are ACCURATE! That's why they look like the real thing—and give you longer, smoother flights! The DeLuxe Monocoupe illustrated above is typical of Comet's great line of EXACT-SCALE models—you'll never know what a thrill there is in model-building until you try one of them!

COMET LEADS THE FIELD

Just study the great Comet features shown on this page for a moment—and you'll understand why model-builders agree that Comet leads the model airplane field! And here are more features that make Comet kits outstanding values in every price range:

SIMPLIFIED REAR MOTOR MOUNT—no wire to bend.

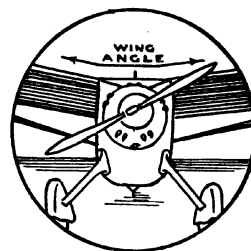

ACTUAL PATTERNS FOR IRREGULAR SHAPED PARTS—saves lots of time.

LAMINATED COWLING—eliminates the hard work.

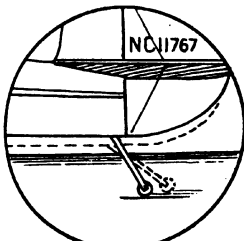

And clear, easy-to-follow plans—how you'll appreciate them!

Send 3c Stamp For Big New Catalog

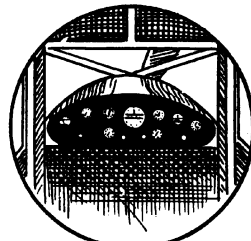

The new Comet catalog lists dozens of new models and lots of old favorites—including a great new line of boat models. Go to your Comet dealer for the full line of Comet kits and supplies!

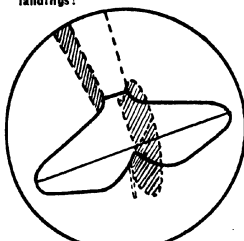

WING DIHEDRAL JIG—assures exact, correct wing angle for smooth, steady flights.

SHOCK-ABSORBING TAIL SKID—for perfect three-point landings!

COMPLETE COCKPIT PANEL—fully detailed instrument panel for greater realism.

ONE-PIECE ELEVATOR—for positive, perfect alignment when glued to fuselage.
