

Physics 699 , Assignment 4

e-mail : Wednesday, April 6, 2011

Just to clarify, Assignment 4 will be to participate in the ATLAS colloquium on Thursday and Friday. The schedule is at:

http://associations.eas.ualberta.ca/atlas/Symposium_2011.html

Please plan to attend half of the student talks (including your own!) as well as the two keynote lectures by Clark Burchfiel.

To keep focussed, please write a (very) brief summary of 6 talks that you found interesting (excluding your own!). Extra points for every question asked!

See you at 10:30 am today if you would like to practice talks in class.

Regards

Martyn
