1. Introduction

Sponsored by China Institute of the University of Alberta, the Association of Chinese Canadian Professors (ACCP, <http://www.accpcanada.ca/>) organized a 6-member delegation that visited ChengDu, the capital city of SiChuan Province, China. The official programme was conducted from March 17 to March 21, 2008. The delegation consists of the following members:

1. Dr. Fu, Yuling; 【yuling.fu@ualberta.ca】

Assistant Clinical Professor
Director, ECG Core Laboratory
Canadian VIGOUR Centre
2-51 Medical Sciences Building
University of Albert
Edmonton, AB, T6G 2H7, CANADA

During the trip, the delegation visited four universities: SiChuan University, SiChuan Normal University, China South West Petroleum University, and the University of Electronics Science and Technology.

The objectives of the trip were to establish the communication and exchange channels between, enhance the mutual understanding of teaching and research achievements of, and explore possible research collaborations or scholar development with the hosting universities and University of Alberta. The delegation members cover engineering,

medicine, education, economics and management science, biological science, mathematics, and technological development.

Throughout the 5 days trip, delegates were intensively involved in exchange of research, discussion with university administration, as well as discussion on possible collaborations. It can be concluded that this trip has achieved the objectives set ahead of the trip. In the following sections, after the agenda, a summary report is given followed by a list of contacts that will be useful for future follow up with the host universities as well as some pictures documenting the moments of receptions, discussions and other activities.

March 21, 2008	City visit and tour day trip	Profs. Ma YS, Liu LL, Xu YF	Arranged by Prof. Jiang Bin, Director of International Collaboration and Exchange Office, UESTC
	Revisit School of Medicine, SiChuan University	Profs. Wang ZX & Fu YL	Arranged by Prof. Deng, Vice Director of International Collaboration and Exchange Office, Sichuan University
March 22, 2008	Depart via CA4107 Flight	Group dismissed.	UESTC sent the group to the airport

3. Trip Summary

3.1 Sichuan University

- Established some informal but substantial exchange channel during this visit; Sichuan University is willing to explore more official mutual relationship with U of A.
- Sichuan University is willing to consider U of A as one of the preferred choice of destination to send their government sponsored scholars for further study or PhD research.
- Prof. Ma YS had explored to work with Profs. Ying GF, Yang SX, Yao J. on intelligent CAD/CAM design methodology and informatics via possible research exchange and information sharing. SU will consider to send 1-2 scholars to Prof. Ma's lab at U of A as the starting point.
- Prof. Fu YL and Wang ZX explored to recruit some graduate students from SU. More detailed schemes and contacts are to be worked out.

Fig. 2. On behalf of ACCP delegation of U of A, Dr. Ma Yongsheng (Mechanical Engineering) presented a token of appreciation to Prof. Shi Jian, Vice President of SiChuan University on March 19, 2008.

3.2 Sichuan Normal University

- SNU expressed sincere appreciation and welcome to the delegation by their Vice Presidents / Profs. Yan YuShong and Qi XiaoLing
- The main discussion points include personnel development for SNU in the future; scholarly exchange; conducting short courses by U of A visiting professors
- Future exchange of remote education and scientific research in some relevant areas
- Graduate student recruitment for U of A.

Fig. 3. ACCP delegation professors visited SiChuan Normal University on March 19, 2008. They were received by Vice President, Prof. Yan YuShun and Vice Director of Overseas Collaboration and Exchange Office, Prof. Yang TianQing.

3.3 South West Petroleum University

- The delegation found a lot of areas for potential collaboration between Faculty of Engineering, U of A and SWPU because of its unique technological research in oil and mining industries
- SWPU welcome overseas Chinese students and professors to join for career development
- ACCP delegation had a very good discussion with deans and directors from different schools and administration offices
- SWPU is currently undertaken undergraduate programme evaluation by China's Ministry of Education
- SWPU is willing to keep in contact with U of A and explore potential opportunities for collaboration

Fig. 4. ACCP delegation professors had a good discussion with SWPU deans and directors when they were on the ChengDu trip on March 20, 2008.

3.4 University of Electronics Science and Technology of China

- UESTC was well prepared for the ACCP delegation's visit. Headed by their Vice President, Prof. Wang HouJun and Director of Overseas Collaboration and Exchange office, Prof. Jiang Bin, UESTC had shown great interest to work closely with the U of A
- UESTC has expressed strong interest to invite Prof. Wang ZX to be their ChangJiang visiting professor
- UESTC is willing to work with Faculty of Engineering, UOA on an institutional partnership.
- UESTC is willing to send top graduate students to U of A for further study. One student has been recruited by Prof. Fu YL on behalf of Prof. Harry Jiang.
- UESTC also expressed wishes to visit U of A by their president in the future. The delegation extended warm welcome to their visit at their convenience.
- The School of Computing and Software Technology of UESTC expressed a strong interest to work with Prof. Ma in the area of collaborative engineering database technology

Appendix A. Report from Prof. Xu YingFeng

From: Yingfeng Xu [mailto:yfxu780@gmail.com]
Sent: April-09-08 10:13 PM
To: Yongsheng Ma
Subject: Chengdu Report

Yongsheng

My apologies for my delayed report.

My visit to the School of Economics of Sichuan University on March 18 is fruitful. I met and had a fruitful discussion with Prof. Fangming Zhu (朱方明), Deputy Dean and Prof. Ming Liu (刘明), who is in charge of the office of international exchange. Prof. Zhu stayed only briefly, for he was about to teach. I then had an extensive discussion with Prof. Liu. I expressed my interest to explore opportunities of cooperation with their school. Prof. Liu provided me with a detailed introduction of the School of Economics. Since Deputy Dean Zhu did not stay long, I had only a general discussion of how we can work together in the future. I intend to keep up the contact with the School of Economics to explore further potential collaboration areas.

Most impressive is my visit to the School of Management of the Sichuan Electronic Science and Technology of China. Deputy Dean, Prof. Runtian Jing (井润田) gave me a tour of the School of Management. We exchanged our views on how we can work together productively. I was touched by the interest and enthusiasm on their part. We agreed to continue our discussion on my short-term teaching there, on my potential participation in their EMBA program and on receiving their young teachers here at the University of Alberta. I also had a meeting with many young faculty members and discussed their research interests.

My visits to the Schools of Management of Sichuan Normal University and Southwest Petroleum University were also interesting and informative. But I am less inclined to pursue further potential exchanges and cooperation.

Appendix B. Report from Prof. Wang ZiXiang

The following is a brief summary of my activity during our recent visit to Chengdu:

1. I spent most of my time in Sichuan University including all day on Tuesday (Mar 18), Wednesday morning (March 19) and Friday morning (March 21). During the visit we toured many places and held discussion with administrators/physicians/scientists. For me, the most important thing is to give a seminar on Friday morning at the School of Medicine. The seminar was well received. The seminar room was packed with audiences and scientific discussions were followed.
2. We spent Wednesday afternoon at Sichuan Normal University. The research activity is low at the University; however, the University is keen at inviting us to set up an advanced course for graduate and senior undergraduate students. The course could be compressed into a two-week period.
3. While we only spent half a day at the University of Electronic Science and Technology of China (UESTC), the visit was actually the most fruit one to me. I had a very meaningful discussion with the administrators and scientists in the School of Life Science and Technology. We discussed science and possible collaborations. Both Dr. Yao, the Dean, and Dr. Zhou, the Associate Dean expressed interest in sponsoring me to apply for Changjing Scholar (visiting professor). The following up visit by two officers from Human Resource of UESTC to our Hotel on Friday night further strengthened the tie and moved the discussion to more concrete procedures. Following several email communication with Ms. Zhang at Human Resources and Drs. Yao and Zhou after I came back, it is agreed that UESTC will sponsor me to apply for Changjing Scholar as the first step of collaboration. Dr. Zhou and I also agreed to jointly apply for a research grant from “the China-Canada Joint Health Research Initiative” co-funded by Canadian Institute of Health Research (CIHR) and National Natural Science Foundation of China (NSFC).
